GRAND

CHAMPION

MICHAEL

OF

BEVERLY-SERRANO

(Chinchilla)

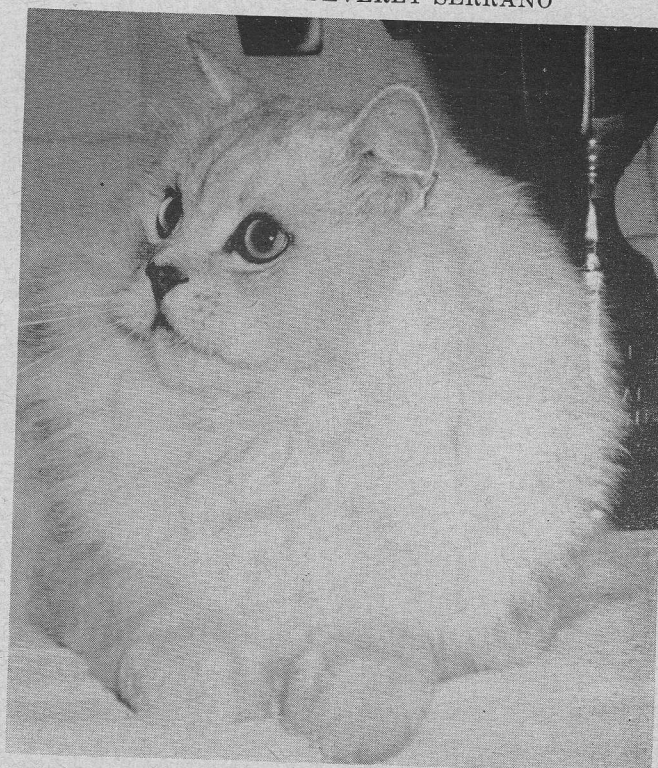

Completed C.F.A. Grand Championship San Diego Jan. 19-20, 1952 where he went Best Cat in Show, adding one more to his long list of "Bests". With this win "Michael" has achieved the highest honor which can be bestowed upon a cat, and we salute him — as one of the greatest and best loved cats of all time — as the grand trouper he is and always has been — and for just being our adored "Mike". We are indeed proud and happy that he is ours.

### TA-LEE-HO-CATTERY — Reg.

We are proud of

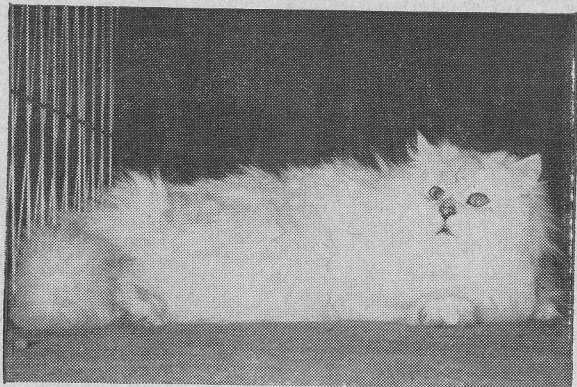

#### DOUBLE CHAMPION PRINCESS KI-KI WONG (illustrated)

Blue Point Siamese — Mother of two Champions —  
one winner and one best novice — From one litter of  
five Kittens born, Nov. 1, 1950. Our reason for this  
burst of pride is our "Princess" who is lacking just  
six points in being a "quad champ". We are happy  
to present.

## CHIRN SA-HAI CATTERY, Mrs. R. L. O'Donovan

6050 S. W. 81st Street, SOUTH MIAMI, FLORIDA (87-6048)

This is Chirn Sa-hai Nee-ang. We are pleased that other Siamese breeders feel she is a "very nearly perfect" sealpoint. We think she's very nice, too.

At risk of sounding immodest, we'd like to point to the eighteen championships completed on Chirn Sa-hai cats and their wins in so many parts of the country. We are proud to send them to new owners who take pleasure in their wins and in their lovely dispositions. Show poise, charm of manner, and loving little ways at home all help to make a fine show cat.

# The CAT GAZETTE

## Selection

BY MRS. WILLIAM K. HEDRICK

Suppose a group of cats chosen for massive size was isolated on an island with the object in view of producing a race of giant cats. Would giant cats evolve out of this experiment? Let us assume that in each generation only those cats which were larger were allowed to remain on the island.

It would be found that the race would become larger for the first few generations and the increase in size would be comparatively rapid. But the rate of increase would slow down and there would be no further change in the later generations.

Selection is limited in its effects. The important point to be remembered is that no new genes influencing size would come into existence.

Size has a complicated hereditary basis in man and the lower animals. Their offspring are generally hybrid, having an assortment of both small and large size genes. After a race is produced that is pure for all the large size genes, selective for larger size is ineffective. And the cat population would still vary in size due to environment.

"Selection within a pure line is ineffective." — Professor Johannsen.

Despite the limits of selections, breeders have accomplished wonders by its means — cows that give over a half ton of butterfat a year, hens that lay an egg a day, flowers with double petals and exceeding beauty. And, in these days of food shortages, what perhaps is most important, rust resistant, cold resistant wheat.

Once a race has become pure for the characteristics wanted, to stabilize we must inbreed, or those characteristics can be lost by outcrossing. The outcross male or female may not be

pure for the external characteristics desired.

By inbreeding we mean the production of offspring by mating closely related stock.

There are various degrees of inbreeding — brother and sister, very close; first cousins, a little less close.

The statement was recently made that mating first cousins is not inbreeding. By every authority known in Animal Husbandry, first cousins are very close. The relationship must be considered in the light of possible inheritable faults, as they have not one ancestor in common, but two.

There is much to be said on the side of inbreeding. The whole family of plants to which the pea and bean belong habitually inbreed by self-pollination. These plants are as vigorous as any in the plant kingdom.

The best breeds of horses, dogs and cattle are closely inbred. Any horse breeder knows he would lower the quality of his highly selected stock by the introduction of outside stock.

One of the practical applications of the Mendelian principle is to offer a final solution to the problem of inbreeding.

The bug-a-boo against inbreeding cats is the dwarfism that ensues. We will consider specifically the Mendelian explanation of the appearance in inbred lines of these small  $3\frac{1}{2}$  to  $4\frac{1}{2}$  lb. cats that appear in one line of whites and in most red tabbies.

There is an hereditary form of smallness which is a single gene mechanism as opposed to massiveness which is produced by multiple factors (more than one gene).

## ABYSSINIANS

By Judy Smith

The earliest reference to the breed is given in a book published in England in 1882 by Dr. Gordon Stables, telling of the cats being brought to England at the conclusion of the Abyssinian War in 1868.

Through the years the breed was fostered by a handful of breeders in England, the first Abyssinian Cats being imported into the United States in the 1930's. They were one male and five females. These cats were the foundation stock of all Abyssinians in the United States until 1949, when Mrs. Blanche Warren and myself imported Abyssinians from England to bring in new blood.

There were more imports during 1950, so we can soon hope to see some nice classes at the shows.

These cats love to play with water and seem to enjoy getting their paws and faces wet. This has been attributed to their history of retrieving water birds when they were the domesticated cats of ancient Egypt. They were worshipped in Egypt, probably because the Egyptians were almost entirely a grain producing nation and, anything in the way of grazing on a large scale being impossible, owing to the surrounding desert, they were, as may be expected, plagued with rats, which even in times of plenty must have been a serious menace. It is no wonder then that they should deify those creatures which acted as nature's check.

In appearance, the Abyssinian has a long, lithe body showing well developed muscular strength. The coat is described as ticked, meaning two or three bands of color on each hair. There are many shades of color in Abyssinians, ranging from silver to grey to ruddy brown, the ruddy color being preferred. The all-over coloring is suggestive of a wild rabbit. The head is pointed, but less extreme than the long wedge head of the Siamese. They have large ears and almond shaped, beautifully expressive eyes, giving the impression of bright alertness. In color, the eyes are hazel, green or amber. The nose is tile red and the paw pads black, which also extends up the back legs. The ears and tail are tipped with black. Their voices are much more musical than the Siamese, and the female is not noisy when in season.

## SEX hormone activity in REX OIL

REX OIL CONTAINS:

1. Estrogenic and androgenic hormonal activity.
2. A powerful ovulating factor.
3. A factor helping new-born to live through weaning.

No wonder hundreds of catteries believe Rex Oil essential to consistent production.

## Rex Wheat Germ Oil, the hormone food, also provides

essential fresh fat factors which nourish the skin and coat. Vitamin E, linoleic acid, phosphatides all work together in REX OIL to give your cat the bloom and finish of a champion. Use Rex Wheat Germ Oil with our unqualified guarantee—you alone are the judge—you must be satisfied or your money back.

Ask your dealer for VIOREX — the new vitamin-mineral supplement with LIVER FAT and LIVER FLAVOR — your cats will love it!

BEST O. S.: Dbl. Ch. Astra's Morris Lindex.  
BEST NOV.: Sono Osato (SP. f.), Mrs. Victoria Swoboda.

(Continued on Page 102)

## Selection

(Continued from Page 97)

Dwarfism arose by mutation (change) of one of the genes for normal size. This gene can be selected against very much as we can select and weed out white from a pedigree.

Two cats (related) might both apparently be of normal size. The mutated gene (d) is recessive to the normal gene (x) from which it arose. Both can carry the gene(d) and would be hybrid for this particular characteristic, having a formula of (x/d). The mating of these two x/d X x/d yields offspring in the Mendelian ratio of one normal x/x (pure for normal size), two hybrid x/d, one pure for dwarfism d/d. It is quite true that all the offspring could be of any one of the gene-types. That is the chance one takes.

One can see how by choosing the cat for normal size the dwarf gene could be eradicated from the line in subsequent generations. This is purifying one's stock.

Inbreeding does not allow only bad genes to express themselves, but also

## ST. PETERSBURG

The ST. PETERSBURG CAT CLUB, ACA, held its 6th Annual Championship Cat Show at the Municipal Pier January 19-20, 1952. This was a triple show; All Breed, Solid Color Specialty, and Siamese Specialty. Over 200 cats were in the show and there were over 1200 visitors.

The club was honored with the presence of Mrs. Stanley Gibson, Secretary and Recorder of the American Cat Association in Chicago, Ill. The judges, Mrs. Gertrude Hamaker of Indianapolis, Ind., and Mrs. Jess Adair of Long Lane, Mo., made every endeavor to make the beautiful pussy cats and the exhibitors happy. The show management is very grateful to everybody who helped make our show a big success.

Following are the bests in the show:

BEST CAT: Moonbeam of Gaylands, Imp. (Bl. m.), Miss Verner Clum.  
 BEST O. S.: Christmas Cotton Bear (O. E. Wh. f.), Mrs. Clarence L. Day.

## Selection

(Continued from Page 98)

the good qualities.

Neither inbreeding nor outbreeding in itself has any influence on the percentage of bad genes in the general population. Inbreeding tends to eliminate hybrids from a population by substituting pure genes for them.

There is always a certain amount of inbreeding in stable groups. Cats are just as apt to inbreed when given their freedom as any other animal. However, nature is a heartless selector—only the fit survive. The weak are always pushed aside to die.

How many breeders work with the weakling, raise it to maturity to pass along its weakness to its progeny?

It is an unfortunate fact that most of us are in a hurry to produce in one year what someone else has taken 25 years to produce. Bad recessive genes, by outbreeding, are spread about, particularly if a popular stud is carrying them.

Which reminds me of the remark my biology teacher made when, after I had panted up three flights to the lecture room, I wished wildly for an elevator. "Young lady, there is no elevator to success."

## BOSTON CAT CLUB

The BOSTON CAT CLUB, INC. presented its forty-seventh annual Championship Show January 18-19, Mrs. Henry Merms and Mrs. John S. Hunter were the judges.

### All-Breed Show

 BEST NEUT.: Kildare's Friar Tuck (Sh. Silv.), Mr. and Mrs. Gerald Barry.  
 BEST SPAY: Kimball's Bitsi Boo Sing. (BP.), Mr. Scott Kimball.

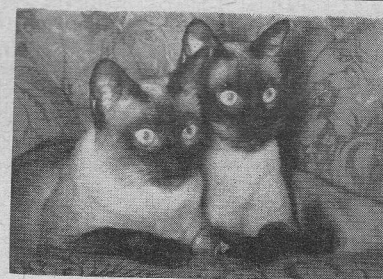

## CORRECTION

Owing to an error in reporting, an item in the results of the Long Beach Cat Fanciers Show published earlier by All-Pets was incorrect. Ch. Skyland Arcturus should have been Best Champion, 2nd Best Cat, and Best in silver division. Ch. Silver Crest Alcyone was Best O. S. Champion instead of Best Champion as reported. Mrs. Gladys Weiruch owns both cats.

## SIAMESE DOTS & DASHES

By Vera M. Nelson

Boson Cat Club, Inc., held its annual show at Horticultural Hall, Boston, Massachusetts, on January 18-19, 1952. For a wonder, the weatherman was really good to exhibitors and visitors to the Boston show — it's always a toss-up as to whether we will have snow, rain, sleet, or what-not about this time of the year in New England. The sun shone, it was warm, and everyone was happy, including the judges who had daylight to judge by, which is a great advantage. Mrs. Frances Herms judged the All-Breed show, and in the Siamese classes, results were:

Blue Points: Fem. Kits, WU PAV-ANNE, Br.-Owner, Mrs. Lillian King. M. Nov., 1, Win. RASNA'S NEFTI OF CATTAILS, Br. Mrs. Pinney, Owner, Mrs. Geo. Brooks. M. Op., 1, PUR-AMI KING NODA II, Br.-Owners, Mr. and Mrs. Geo. Green. M. Ch., 1, Best Opp. B. P., CHAMPION HOLLYCAT BLUE MICKEY, Br.-Owners, Mr. and Howard Stackhouse. F. "ARABIAN NITE'S CATTERY"

C.F.A. registered

Breeder of fine Persian cats and kittens. Blues, blacks, reds, creams and torties in kittens . . . \$15.00 up for pets. Heavy coats, short tails. Black "Champion Charcoal" son at stud. Also brown tabby Champion.

Route 3, Baraboo, Wis.

\*Champion Suan Fa-Hing, five year old mother of Champion Suan Katscha, All-Eastern Foreign Short Hair for 1949. Owned by Mrs. Claire O'Bryon, eminent breeder, who credits PERVINAL with helping to keep her cats in constant good health and to meet the exacting requirements of competitive showing.

*"perfect for cats"\**

**PERVINAL** vitamins and minerals

**SLEEK COATS**

**SOUND BONES AND TEETH**

**CLEAN SKIN, CLEAR EYES**

**NORMAL GROWTH**

**GOOD NERVE AND MUSCLE COORDINATION**

... are often the rewards of good nutrition in the cat.

Good nutrition (starting with the feeding of the mother) helps produce champions. PERVINAL is a diet supplement combining all of the vitamins and minerals known to be necessary for cat nutrition.

No fuss, no mess—just add ¼ to ½ teaspoonful of this palatable syrup to food daily. Dosage may be adjusted to the needs in pregnancy, lactation, rapid growth or illness. Consult your veterinarian.

**PERVINAL contains:**

**Vitamins:** A, B<sub>1</sub>, B<sub>2</sub>, B<sub>6</sub>, D, E, niacin, B complex (from yeast and liver)

**Minerals:** calcium, phosphorus, potassium, sodium, iron, magnesium, manganese, copper, zinc, iodine

## HOUSEBREAK

The easy, clean, economical way. Pets love Rudhard's QUICK ABSORBER—sanitary flakes for cats pan that DE-ODORIZE and dry up an amazing amount of smelly excreta.

Rudhard's Famous BAKED FISH BALLS is the ONLY food in HANDY DRY FORM that cats REALLY LIKE.

Sample on request.

Write for special prices to dealers, cat-teries, breeders and other direct buyers.

## WESTERN CAT NEWS

By Emily de Haas

The West Shore Cat Club has completed its first show very successfully. The manager, Vivian Osburn, assisted by Wally Peterson, can feel gratified with the results. The catalogue was attractive with a cover in color of a panorama of the Long Beach Auditorium with its palms and flowers and a background of ocean. The weather — well, it was real California sunshine after a week of fog. A foreward written by Mr. and Mrs. W. J. Hall explained the show for beginners and visitors, giving classifications and points. This is important, for those of us who have attended show that Mrs. Sample has judged many people are there for the first time and do not know anything about the procedure. A page contained pictures of the judges, Mrs. Rotter for the All Breed, Charles Victor for the Silver Specialty, and Mrs. L. Darrel Sample for the Siamese Specialty. We were told that this is the first show that Mrs. Sample has judged and if this is true she certainly conducted herself with poise and confidence and looked like she had years of experience. Mr. Victor is a favorite of this area and his judgment is always respected among the breeders.

Smocks are almost a must for exhibitors to wear at shows and it is interesting to see how many attractive ones are appearing. Mrs. Rotter had a stunning smock of red satin with cats painted on it. Mrs. Bjerring had another with cats on it and we noticed several others.

Breeding time is here and it is important to look over those queens and be certain that they are in just as good condition as possible. Coats, ears, teeth and the possibility of worms should be double checked. No queen

IT is REASONABLE to suppose, that UNCL' GEORGE'S FOODS work on ALL ANIMALS, from worms to HORSES and

CATS CAN NOT BE EXEMPTION!  
We know the difficulties of ALL BREEDING OPERATIONS since our office contains inquiries and furnishes food for all; all over the U.S., MEXICO, CUBA, CANADA, and now the PHILLIPINE ISLANDS! THE Need for UNCL' GEORGE'S SUPPLEMENTS are desperately needed ALL OVER THE WORLD!

In Canada minks killed one week after conception have 12 to 13 fertilized embryos; if killed 4 weeks after conception they have only FOUR to FIVE? WHAT is HAPPENING to the 7-8 that are lost? We said it for a long time that EVERY FEMALE has an AUTOMATIC control over ANY and ALL fertilized embryos, she can reabsorb them or miscarry if SUITABLE nourishment is lacking.

At the same time, The Tenn. ATOMIC experiments proved that food eaten SIX WEEKS BEFORE CONCEPTION is NEEDED for embryo DEVELOPMENT. Since this is about the time we advised to feed our FOOD FACTORS to ALL BREEDERS BEFORE MATING so SCIENCE BACKS US, AGAIN.

Now let us see, the so-called MIRACLE DRUGS, the Antibiotics, while they might be effective in EXTREME CASES of DISEASE, they are not for every day feeding!

Dr. S. A. Portis of the U. of Ill. says that AUROMYCIN and Penicillin causes cirrhosis of the liver.

Since, it came out that millions of humans in the war torn countries became permanently STERILE due to STARVATION and there is no doubt to our mind that in a great many cases this happened to many of our animals, so we can NEVER GUARANTEE any PARTICULAR PAIR! AFTER ALL UNCL' GEORGE has ONLY NATURE'S NATURAL NURTMENTS in other words FOOD, incapable to do good in cases where SEX DOES NOT EXIST.

## COVER NOTES

Siamese are now listed as the most popular breed of cat and we are happy to welcome two of their family on our cover for 19th Annual March Hall of Fame issue. Featured will be Imperial Siamese Catteries, internationally famous 'Champion Imperial Petam, Imp't.', together with one of his young sons, 'Imperial Intrepid', well on his way to championship and with a Best Novice in Show award to his credit. Breeder, owner is Mrs. Fred Wilson, Paramus, New Jersey, who first made a modest beginning with Siamese in 1950 and went on to specialize in quality Seal Points on a large scale, together with pioneering in Chocolate Points. These catteries imported a number of Siamese of top-notch English bloodlines following the close of the war. Patience, and much study, enabled Mrs. Wilson to establish her own strain, patterned after the type in cats belonging to the late Miss Busted.

## Golden Gate Cat Club

The GOLDEN GATE CAT CLUB, INC. presented its fifth annual championship All-Breed show at the Oakland Auditorium Arena in Oakland, California on December 1-2, 1951. Mrs. Lester O'Neill served as judge.

**Dots and Dashes**

(Continued from Page 103)

Do any of you take the News Sheet of the Siamese Cat Club of England? Mr. P. M. Soderberg publishes the News Sheet, and it is full of most interesting articles—for instance, in the November issue, there is one written by Frank and Stella Turk on the origin of the Siamese entitled "Facts, Fictions and Theories of the Origins of the Siamese Cat", which is fascinating. Pictures used in the News Sheet are beautiful, and both text and pics are on fine glossy paper, pleasant to handle and see. If you are interested in all-Siamese news, you may subscribe to this paper, by writing to Mr. Soderberg at Mott-rams, Caterham, Surrey, England.

No more for this month, friends, for the Hall of Fame needs much space, and we are happy to see many of you among the exhibitors in this grand issue. Do write of cats, news, additions to Siamese families, etc., to 426 Elm Street, Braintree, Mass. I regret having neglected to give full credit to Mrs. Gibson's Pat-An Pretti Kitti, seal point female novice, whom I reported as first in her class. She was also best novice in the specialty at Garden State Show.

**Siamese Cat Club**

The NATIONAL SIAMESE CAT CLUB at the regular annual meeting held January 19th, 1952 in New York City selected the following officers for two year terms: President, Mrs. James E. O'Bryon; Vice President, Mrs. Howard Stackhouse; Secretary & Treasurer, Mr. Wm. I. Thompson, 507 Beechwood Avenue, West Allenhurst, New Jersey.

In recognition of her services in the founding of this club, and in appreciation of many years as Secretary and Treasurer of the organization, Miss Lillian Goodwin of Teaneck, N.J. was elected Honorary President.

The membership, after general discussion, passed the following resolutions, and forwarded them to the Secretary of the Cat Fanciers Association for action by that body at the annual meeting. 1. That the recent ruling of the C.F.A. to eliminate color classes for Manx cats be rescinded. 2. That in the future the C.F.A. restrain from making changes in the show rulings to take effect during the progress of a show season. 3. That no change in show rules become effective until they shall be added to and be made a part of the printed show rules sent to exhibitors at the time of mailing entry blanks.

After routine business matters had been completed, those members present in general discussion decided to make a concerted drive for members from the entire country, inviting all breeders, exhibitors, and those persons interested in the Siamese Cat to join. It was decided that in this way, our aims for the betterment of this breed might better be served, and that by wider representation through members, many of the problems which have confronted Siamese exhibitors at shows in the past, may in the future be solved. It was also felt that more frequent meetings would enable this club to more closely follow the progress of Siamese throughout the country and to establish a greater number of Specialty shows.

Information concerning the National Siamese Cat Club (CFA) may be obtained from the Secretary, Wm. I. Thompson.

**Western News**

(Continued from Page 104)

who is not in the best of condition should be bred until everything is perfect. Once a queen is bred it is not so easy to treat her.

The first indication that she is bred comes just a month after breeding when the nipples swell and become very red. This condition usually lasts only for a day or so. I have never known it to fail and would like to hear from other breeders if they have any other way of determining pregnancy before the cat begins to grow large. Whether it is wise to leave the queen with the stud after breeding depends upon the cats. I have two studs that take such tender care of the queen, washing her ears and face and waiting for her to eat first, and then another one who will have nothing to do with the queen once she is bred.

Be sure to have that nursing bottle ready for the kittens, for it will save lives many times when the milk is slow in coming in. Feeding all kittens about six hours after birth gives an opportunity to look them over, teaches the kittens to suck, and gives them more strength to nurse. NEVER take a chance that the kittens are getting enough the first few days.

Miss Archibald has written that the First Abyssinian to go best in a specialty show was some time ago in Kansas city, another was in 1948, and her own Ambigi at the Canyon State Show in Phoenix completed her Grand Championship points in A.C.A. to become the First Abyssinian to become a grand champion.

**CORRECTION**

Due to a typographical error in last month's report on the Colorado Cat Fanciers' show we did not give proper credit to the owner of RUGGED RAGO BEAR and BLUE TINSEL. The owner of both cats is Mrs. T. R. James of Minneapolis, Minn.

Your favorite breed of pet will be more popular only when you advertise them in your local newspaper, by radio, and by direct mail so that everyone knows about them.

**JUST-A-MERE KATTERY**

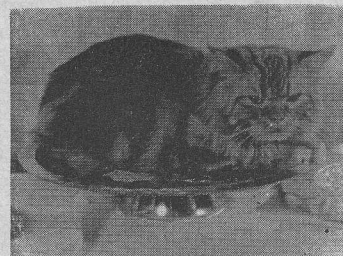

**SOLID RED KITTENS**—excellent coby type large boned 4 mo. old female kittens. Solid heavy coat without markings. Also nice cream female 3 mo. old with Dbl. Ch. and Gr. Dbl. Champions behind them. Will book orders for Spring Kittens.

## CAT-O-GRAPHS

An interesting, amusing group of 58 cat pictures has been compiled into Cat-O-Graphs, the new picture annual published by the American Crabmeat Company, packers of "3 LITTLE KITTENS All-Fish Cat Food". The new advertising campaign in ALL-PETS MAGAZINE urges readers to send in 25c to cover mailing and handling to Cat-O-Graphs, Post Office Box 1042, Boston 3, Mass.

The pictures published in Cat-O-Graphs are some of the hundreds entered in the "Cat Picture of the Month" and "Cat Picture of the Year" contest currently running. The American Crabmeat Company is offering a \$25 series E Government Bond each month for the winner. All photos are eligible for the Cat Picture of the Year Award of a \$100 Series E Govt. Bond.

Photographers and Cat owners are urged to send their entries for this contest to P.O. Box 403, Boston 2, Mass.

## Coronado Cat Club

The CORONADO CAT CLUB is a new club, having been in existence less than two years. The meetings are held on the last Thursday of each month at the homes of its members. This lends an informal and friendly atmosphere to the gatherings.

Our club has had a very successful year, and the small membership has been most faithful in supporting its efforts toward a cooperative and substantial growth. We have held a successful cat show as well as numerous benefit parties such as, beach luncheons, patio and buffet suppers, and we are now planning a rummage sale.

We have made an effort to be of assistance in supporting community efforts in the interest of cats, and to work with the Humane Officer of the Coronado pound in bettering the housing of impounded cats.

This year we are going to devote considerable time and energy toward interesting new and worthwhile members; toward providing speakers for meetings who are of interest to cat fanciers and breeders; and toward plans for our next show.

The president of our club is Mrs. Pauline Jones, and the secretary is Mabel G. Slocum.

## Norfolk Cat Fanciers

The annual meeting of the NORFOLK CAT FANCIERS, INC. was held January 3, 1952. The following officers for 1952 were elected. President, Mrs. M. N. Lawrence; Vice-President, Mrs. E. M. Wilson; Recording Secretary, Mrs. E. H. Mist; Corresponding Secretary, Mrs. Alberta Francis; Treasurer, Mrs. R. S. Orr.

The Board of Directors is as follows—Mrs. Lawrence, Mrs. Mist, Mrs. J. Harry Day, Mrs. E. M. Wilson and Mrs. Lewis H. Fisher.

Mrs. Lawrence was also elected as Show Manager and she has announced the dates for the next show which will be held October 4th and 5th. This will be our first show to be held in a hotel which is always pleasing to exhibitors. We have secured the beautiful Hotel Chamberlin at Fort Monroe, Va. Not only is the hotel a lovely building but the surroundings are very pleasing. We believe our out of town exhibitors will enjoy some of our historical points of interest around Fort Monroe. We are planning on an all-breed along with four specialties, namely Solid Color, Silver, Siamese and Domestic Short Hair. Mrs. J. Harry Day, Pub. Ch.

**LONDON SIAMESE SHOW**

Reported By P. M. Soderberg

October 11th was indeed a day of celebration, for on this day the Siamese Championship Show came of age. This was the twenty-first show in the series; a truly remarkable performance.

For me the show had an added significance this year, for I was asked to judge the female kittens; an honor indeed as Chairman of the Club for the past four years.

The general quality of the cats was high and there were many which would be considered outstanding in any country where Siamese are bred and exhibited. There were, of course, a few poor specimens which should never have been shown, but with a club membership of nearly a thousand there must always be a few novice members who have to see cats at a show before they realize the standard required. Yet of more than a hundred and seventy cats on show, not more than a dozen could have been rejected by the judges without a second glance. Surely that is proof of quality.

Some of the classes were very large and I noticed that some kitten classes had more than thirty exhibits with the inevitable result that many good kittens just had to go cardless. Exhibitors, however, were not unduly disappointed, for they could see for themselves how high was the general quality and how the smallest faults were bound to affect the placings.

The Best Exhibit in Show was Mrs. Duncan Hindley's Blue Seagull, a Blue-Point of remarkable quality. His sire was Maa Cha Polyphemus and his dam Li Soo. The breeder

(Continued from Page 111)

was Miss Armstrong.

This win of Mrs. Hindley's was very popular, for she has long been known not only in this country as an outstanding breeder of Seal-Points, but her prefix of Prestwick has an international reputation.

In the Open Male Class the Championship for Seal-Points went to Richard Warner's Ch. Clonlost Yo-Yo (sire Doneraile Dekko, dam Foxburrow Runtu). The breeder was Mrs. Burgess. I have always followed Yo-Yo's many wins with interest as I bred his mother in the days before I found that Siamese love songs were more than I could bear. I now keep Siamese as pets only.

The winner of the Championship for Seal-Point females went to Mrs. Nicholas' Rye-croft Ranchi, a really neat little queen of true Siamese type (sire Mystic Dreamer, dam Ch. Southwood Sunya). Mrs. Nicholas was also the breeder of Ranchi.

The Championship for Blue-Point males went to Mrs. Duncan Hindley's Blue Seagull, while the premier award in the female class was won by Miss Thomas' Mowhay Blue Sandra sire Maa Cha Polypemus, dam Li Soo). It is remarkable that the mating in each case was the same although the two Championship winners did not come from the same litter.

There were only two Chocolate-Points in the Open Classes and the Championship was awarded to Stirling-Webb's Holmesdale Chocolate Soldier (sire Ch. Prestwick Penglima-Pertama, dam Hillcross Sirikit. The breeder was Mrs. Gunn.

Kittens were numerous indeed and totalled well over a hundred with the result that Mrs. France who had the males and I who judged the females had a lively and most interesting day.

On the whole I thought the males were better than the females, but I think this only meant that the best male kittens were more outstanding than their sisters. It has happened before, but I have no doubt that the tables will be turned another year. Judging from the quality of some of these young males, there should be some quality studs available to breeders in the next year or two.

The Best Kitten in Show was the Best Male Kitten, Mrs. McGregor's Inwood Chinky, sire Ch. Clonlost Yo-Yo, dam Inwood Ting). Mrs. McGregor was also the breeder.

The Best Female Kitten was Rye-croft Tudor Rose (sire Ch. Morris Tudor, dam Ch. Southwood Sunya). Tudor Rose was bred by Mrs. Nicholas and shown by Mrs. Highton.

It was indeed a grand show put on with the usual efficiency we expect from Mrs. Kent who has long been known to Siamese fanciers

the world over as Mrs. Hart, the Hon. Secretary of the Siamese Cat Club. Even with a name her efficiency was as marked as ever.

We were also very fortunate in having Kathleen Yorke, the Chairman of the G.C.C.F., to present the awards. An enthusiastic crowd showed the greatest interest in this spectacular show from the very moment the doors were opened to the public.

The next Siamese Show will be held in London next October. Perhaps some of you can fit it in with your vacation in Europe. It is worth a visit.

**Abyssinians**

(Continued from Page 97)

which is a decided advantage. The males are non-aggressive and do not reach maturity until they are about eighteen months of age. Litters are usually small.

It is extremely difficult to breed a specimen true to standard—certain faults such as bars and white markings have a habit of persisting. Therefore, very careful selection in the breeding, and much patience is necessary. A really good cat of this breed is most delightful to observe and own. Generally they have a fascinating disposition—very friendly, gentle, affectionate, playful, intelligent and easily trained. They have a good appetite, but not gluttonous and will thrive on the customary diet for domestic cats. The usual cat illnesses will attack them, but they are not unduly susceptible and will respond to human help if you bear in mind that there are always some, as with humans, that do not react to the ministrations of treatment.

The prices range from seventy to one hundred and fifty dollars, according to show possibilities.

**CUYAHOGA SHOW**

The CUYHOGA VALLEY CAT CLUB held its show January 12-13 in Akron, Ohio. Mrs. George Milliere of Toledo was show clerk, and Mrs. Anna Pardee of Delta, Ohio was judge. It was a very successful and well run show.

BEST CAT: Lake Erie Sunny Boy (Bl. m.), Mrs. Rose Hardacre.

BEST O. S.: White Rose Bear (Gold. E. Wh. f.), Mrs. T. R. James.

BEST GR. CHAMP: Smallhurst's Girl of Sun (Red f.), Mrs. J. J. Small.

BEST CHAMP.: Ch. Cable's Hy-Kee (B. P. f.), Mr. and Mrs. R. A. Cable.

BEST NOV.: Maple Keep Sir Garrett (Blek. m.), Mrs. Rose Hardacre.

BEST O. S.: Kitty Kate (Cr. f.), Mrs. Rose Hardacre.

BEST KIT.: Lake Erie Emblem (Bl. m.), Mrs. Robert Coulter.

BEST O. S.: Cat Trinket of Selene (Abys. m.), Mr. and Mrs. Leonard Schuler.

BEST NEUT.: Thelma's Golden Sun (Red T.), La Donna Krall.

BEST SPAY: Spider (Br. T.), Mrs. W. Murry Smith.

BEST FOR. S. H.: Ch. Cable's Hy-Kee.

BEST DOM. S. H.: A brown tabby female owned by Miss Kay Thoma.

BEST S. H.: Ch. Cable's Hy-Kee.

Your favorite breed of pet will be more popular only when you advertise them in your local newspaper, radio and by direct mail so that everyone knows about them.

## SICK KITTENS

A severe, often fatal disease has led many kittens to crawl into water and drown.

The disease, known as feline panleucopenia or infectious gastroenteritis, is almost as common in cats as distemper is in dogs.

The disease can be largely prevented by vaccination, while cases in the early stages may be saved from death by treatment with serums and antibiotic drugs.

—A.M.V.A.

## At Stud

### All-Pets 1952 Listing

DBL. CH. Lord Essex. All-Eastern Siamese B.P., 1951. Excellent eye color. Sires small type kittens, whip tails. Also Millbrook's Krita of Sherwood, Seal Point. Never shown.
